

Another example would be how ArcGIS Online was utilized by a tribal youth to create a map of Mountain Goat Units and DNR gates to create a stand-alone app that can be accessed on any cell phone or device (see below).

Another example of how ArcGIS Online was utilized for preservation, was the initialization of a project of a mapping project to re-establish the use of Coastal Lushootseed Toponyms (Place Names) in the Stillaguamish Traditional Area. Our goal is to have 200 place names in the next 2 years. This is also available as a stand-alone app.

5. Did your project change in the course of completion? Did anything happen that was unexpected? (Maybe you discovered a better or more efficient way of accomplishing your purpose, or maybe you discovered your project couldn't be accomplished in the way you had envisioned.)
